Construction Update

Manhattanville in West Harlem Campus Plan

Construction Activities for the Next Two Weeks

Columbia’s long-term plan for the old Manhattanville manufacturing area will revitalize the four former industrial blocks from 125th/129th to 133rd Street between Broadway and 12th Avenue, and three small blocks along the east side of Broadway from 131st to 134th Street, into an environmentally sustainable and publicly accessible center for academic and civic life woven into the fabric of the West Harlem community.

Construction Activities for the Weeks of:
December 4, 2017 and December 11, 2017

What is happening

**The Forum**
- Roofing installation on levels four, four-mezzanine, and five
- Ductwork installation on second and third floors
- Electrical roughing at the below-grade level, street-level space, and second level
- Roughing work in the switchgear room. Cable pulls from the Central Energy Plant and shutdown to energize Forum switchgear.
- Precast installation is substantially complete. Precast punchlist work is ongoing.
- Installing store front trims and gaskets at street-level space and curtain wall glass, trims and gasket at levels two and three
- Mechanical, plumbing, and fire protection roughing at the below-grade, first, and second levels
- Framing and sheetrocking throughout the building
- Spray foam insulation on levels two and three. Spray on fireproofing on level three on second shift.
- Ceiling framing on the ground floor is substantially complete
- Painting throughout the building (interior and exterior)
- Passenger elevator (PE-4) railing work
- Installation of scaffolding in elevator shafts
- Installing interior stairs and fire stairs handrails
- Electrical roughing of below-grade walls and powering of HVAC equipment
- Work to take place on Saturdays for the remainder of the year

**Open Space: Small Square and site work on W129th, W130th and Broadway around Jerome L. Greene Science Center**
- Complete punch list items

**Phase 2 Foundations**
- Installation of production minipiles
- Install concrete pile caps
- Install pressure slab at west half of site

What to expect
