No more than three scholarships can be in force at any given time with a cumulative maximum of 18 credits per school year. The cumulative maximum of 18 credits per school year makes it likely that only one scholarship will be awarded annually due to the Master’s Degree Program credit requirements.

Scholarship recipients #3 and #4 are the same person, as a one time exception, approved by Empire State Development, was granted to this individual to continue their studies at the doctorate level.

*The recruitment process was being refined during Academic Year 2014-2015, and continues to be modified going forward. It is anticipated that depending on the program selected by the scholarship recipient and requirements of the specific program selected, there could be a need to adjust the recruitment process annually to meet the obligation. In the case of [Name], she accelerated her participation and was able to utilize 36 (two years’ worth) credits in a little less than 18 months. As a result, no new scholarship was awarded in school year 2014-2015.*

** was awarded 18 credits to use in Academic year 2015-2016. ** utilized 10 of these credits and then chose to use credits she received from having a student teacher in her classroom to cover the rest of her courses.

<td>Since elementary school education is Grades 1-6 and CSS-MSE serves grades 6-12, then teachers of Grade 6 at CSS-MSE would be eligible to apply for a graduate scholarship. If a CSS-MSE elementary school teacher is eligible for a graduate scholarship, then s/he would be able to provide either a Childhood Education Certificate (Grades 1-6) or a Middle School Education Certificate (Grades 5-9). This means there will be a certification overlap for Grade 6 for teachers from CSS-MSE. • CSS-MSE elementary school teachers would fulfill the requirement that they be “qualified elementary school teachers either currently teaching within Community District 9 or interested in teaching elementary school within Community District 9.”</td>
<td>• Qualified elementary school teachers must be accepted into a master’s degree program from the pre-approved list of programs. • CSS-MSE elementary school teachers would meet the eligibility requirement, but the scholarship recipient would still need to make a 5 year commitment to teach within Community District 9. • CSS-MSE elementary school teachers would need to fulfill the requirement that they meet the criteria of the NYCDOE, the United Federation of Teachers, and/or the local school principal.</td>

SCHOLARSHIP AVAILABILITY

The maximum **annual** scholarship to be awarded will cover 18 credits. In many cases, this will limit the number of scholarships to one annually which may be renewed until the completion of the selected Master’s Degree. Individual programs may have a restriction on the number of credits that must be taken annually and can impact the number of scholarships awarded. Further explanation follows:

a) 1 scholarship for 18 credits = 18 credits
b) 2 scholarships for 9 credits ea. = 18 credits
c) 3 scholarships for 6 credits ea. = 18 credits
d) Or any other combination equaling 18 credits annually.

FOR CONSIDERATION:

**Outreach:**

Outreach will begin with the Columbia Secondary School for Math Science and Engineering as well as the Teacher’s College Community School. After at least five years, Columbia will re-evaluate to determine if additional outreach might be necessary.

**Eligibility**

A qualified elementary school teacher, who has not yet been admitted to a Master’s degree program, can still apply for a graduate scholarship, but their scholarship award will be contingent on their graduate program acceptance.
