The Mobile Dental Center (MDC) was not operable due to mechanical issues from November 7, 2018 through November 14, 2018. It was also not operable due to mechanical issues on January 18, 2019. The van experienced issues related to the generator, the access steps, internal heating issues and other power issues which prevented it from running and hence the service being provided. The van also experienced incidents of being hit by other vehicles causing the side view mirrors to be knocked off and other damages. Issues of this sort take a few days to repair and also impact delivery of the services. The new mobile dental van is expected to be delivered in late December 2019 or early January 2020.

Additionally, on March 27, 2019 the MDC driver experienced a medical emergency and was placed on an extended medical leave of absence from March 27, 2019 through July 13, 2019 and subsequently retired effective July 16, 2019. A temporary driver was hired and began work on July 30, 2019. During the months of August and September 2019 no sites within the reporting local zip code range were visited for dental screenings.

About this notice
This Notice will tell you about the ways we may use and disclose health information that identifies you (“Health Information”). We also describe your rights and certain obligations we have regarding the use and disclosure of Health Information. We are required by law to maintain the privacy of Health Information that identifies you; give you this Notice of our legal duties and privacy practices with respect to your Health Information; and follow the terms of our Notice that are currently in effect. This Notice covers the faculty physician practices of Columbia University Medical Center (“Columbia University”, “Columbia”, “we” or “us”), including its employed faculty physicians and faculty physicians practicing on Columbia University owned or leased space, as well as their clinical support staff. This Notice also covers Columbia University Health Care, Inc.; the Ophthalmology Faculty Practice Corporation; Orthopedics, P.C.; Neurosurgery, P.C.; and Urology, P.C. (all “Columbia University”). If Columbia physicians or health care professionals provide you with treatment or services at another location, for example New York Presbyterian Hospital, the Notice of Privacy Practices you receive at such other location will apply.

How we may use and disclose health information about you
The following categories describe different ways that we may use and disclose Health Information.

For Treatment
We may use Health Information about you to provide you with medical treatment or services. We may disclose Health Information to doctors, nurses, technicians, medical students, or other personnel who are involved in taking care of you. For example, a doctor treating you for a broken leg may need to know if you have diabetes, because diabetes may slow the healing process. Different departments of Columbia University also may share Health Information such as prescriptions, lab work and x-rays to coordinate your treatment. We also may disclose Health Information to people outside Columbia University who may be involved in your medical care.

For Payment
We may use and disclose Health Information so that we may bill for treatment and services you receive at Columbia University and can collect payment from you, an insurance company or another third party. For example, we may need...
to give your health plan information about your treatment in order for your health plan to pay for such treatment. We also may tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment. In the event a bill is overdue we may need to give Health Information to a collection agency as necessary to help collect the bill or may disclose an outstanding debt to credit reporting agencies.

**For Health Care Operations**
We may use and disclose Health Information for health care operations purposes. These uses and disclosures are necessary to make sure that all of our patients receive quality care and for our operation and management purposes. For example, we may use Health Information to review the treatment and services you receive to check on the performance of our staff in caring for you. We also may disclose information to doctors, nurses, technicians, medical students, and other personnel for educational and learning purposes. The entities and individuals covered by this Notice also may share information with each other for purposes of our joint health care operations.

**Appointment Reminders/Treatment Alternatives/Health-Related Benefits and Services**
We may use and disclose Health Information to contact you to remind you that you have an appointment for treatment or medical care, or to contact you to tell you about possible treatment options or alternatives or health related benefits and services that may be of interest to you.

**Fundraising Activities**
We may use your demographic information to contact you in an effort to raise money for Columbia. Any fundraising letter you receive from us will provide you with instructions on how to opt out of any future fundraising letters. We will not use your diagnosis to fundraise unless you authorize us to do so in writing.

**Individuals Involved in Your Care or Payment for Your Care**
We may release Health Information to a person who is involved in your medical care or helps pay for your care, such as a family member or friend. We also may notify your family about your location or general condition or disclose such information to an entity assisting in a disaster relief effort.

**Research**
Under certain circumstances, we may use and disclose Health Information for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. Before we use or disclose Health Information for research, however, the project will go through a special approval process. This process evaluates a proposed research project and its use of Health Information to balance the benefits of research with the need for privacy of Health Information. Even without special approval, we may permit researchers to look at records to help them identify patients who may be included in their research project or for similar purposes, so long as they do not remove or take a copy of any Health Information.

**As Required by Law**
We will disclose medical information about you when required to do so by international, federal, state or local law.

**To Avert a Serious Threat to Health or Safety**
We may use and disclose Health Information when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, will be to someone who may be able to help prevent the threat.

**Business Associates**
We may disclose Health Information to our business associates that perform functions on our behalf or provide us with services if the information is necessary for such functions or services. For example, we may use another company to
perform billing services on our behalf. All of our business associates are obligated, under contract with us, to protect the privacy of your information and are not allowed to use or disclose any information other than as specified in our contract.

**Organ and Tissue Donation**
If you are an organ or tissue donor, we may release Health Information to organizations that handle organ procurement or organ, eye or tissue transplantation or to an organ donation bank, as necessary, to facilitate organ or tissue donation and transplantation.

**Military and Veterans**
If you are a member of the armed forces, we may release Health Information as required by military command authorities. We also may release Health Information to the appropriate foreign military authority if you are a member of a foreign military.

**Workers’ Compensation**
We may release Health Information for workers’ compensation or similar programs. These programs provide benefits for work-related injuries or illness.

**Public Health Risks**
We may disclose Health Information for public health activities. These activities generally include disclosures to:
- a person subject to the jurisdiction of the Food and Drug Administration (“FDA”) for purposes related to the quality, safety or effectiveness of an FDA-regulated product or activity; prevent or control disease, injury or disability; report births and deaths; report child abuse or neglect; report reactions to medications or problems with products; notify people of recalls of products they may be using; a person who may have been exposed to a disease or may be at risk for contracting or spreading a disease or condition; and the appropriate government authority if we believe a patient has been the victim of abuse, neglect or domestic violence and the patient agrees or we are required or authorized by law to make such disclosure.

**Health Oversight Activities**
We may disclose Health Information to a health oversight agency for activities authorized by law. These oversight activities include, for example, audits, investigations, inspections, and licensure. These activities are necessary for the government to monitor the health care system, government programs, and compliance with civil rights laws.

**Lawsuits and Disputes**
If you are involved in a lawsuit or a dispute, we may disclose Health Information in response to a court order, subpoena, discovery request, or other lawful process by someone else involved in the dispute, but only if efforts have been made to tell you about the request or to obtain an order protecting the information requested.

**Law Enforcement**
We may release Health Information if asked by a law enforcement official for the following reasons: in response to a court order, subpoena, warrant, summons or similar process; limited information to identify or locate a suspect, fugitive, material witness, or missing person; about the victim of a crime if, under certain limited circumstances, we are unable to obtain the person’s agreement; about a death we believe may be the result of criminal conduct; about criminal conduct on our premises; and in emergency circumstances to report a crime, the location of the crime or victims, or the identity, description or location of the person who committed the crime.

**National Security and Intelligence Activities and Protective Services**
We may release Health Information to authorized federal officials for intelligence, counter-intelligence, and other national security activities authorized by law. We also may disclose Health Information to authorized federal officials so they may conduct special investigations and provide protection to the President, other authorized persons and foreign heads of state.

**Coroners, Medical Examiners and Funeral Directors**
We may release Health Information to a coroner, medical examiner or funeral director so that they can carry out their duties.

**Inmates**
If you are an inmate of a correctional institution or under the custody of a law enforcement official, we may release Health Information to the correctional institution or law enforcement official. This release would be if necessary (1) for the institution to provide you with health care; (2) to protect your health and safety or the health and safety of others; or (3) the safety and security of the correctional institution.

**How to Learn About Special Protections for HIV, Alcohol and Substance Abuse, Mental Health and Genetic Information**

Some parts of this general Notice of Privacy Practices may not apply to these types of information. If your treatment involves this information, you may contact the Privacy Officer for more information about the protections.

**Other Uses of Health Information**
Other uses and disclosures of Health Information not covered by this Notice or the laws that apply to us will be made only with your written permission. You may revoke your permission at any time by submitting a written request to our Privacy Officer, except to the extent that we acted in reliance on your permission.

Este Aviso cubre las prácticas de los médicos de la facultad en el Centro Médico de la Universidad de Columbia (“Columbia University”, “Columbia”, “nosotros” o “nos”), incluyendo a los médicos empleados en la facultad y a los médicos de la facultad que ejercen en un lugar que pertenece a la Universidad de Columbia o en un lugar arrendado por dicha universidad, así como al personal de apoyo clínico. Este Aviso cubre también a Columbia University Health Care, Inc.; Ophthalmology Faculty Practice Corporation; Orthopedics, P.C.; Neurosurgery, P.C.; y Urology, P.C. (todos de la “Universidad de Columbia”). Si los médicos o profesionales de cuidado de salud de Columbia le brindan tratamiento o servicios en otro lugar, por ejemplo en el Hospital New York Presbyterian, se aplicarán los términos del Aviso sobre las Prácticas de Privacidad que usted reciba en ese otro lugar.

Cómo podemos usar y revelar la información de salud sobre usted

Las categorías siguientes describen varias formas en las que podemos usar y revelar la Información de Salud.

Con fines de tratamiento

Podemos usar la Información de Salud sobre usted para ofrecerle tratamiento o servicios médicos. Podemos revelar Información de Salud a los médicos, las enfermeras, los técnicos, estudiantes de medicina u otro personal que participe en su cuidado. Por ejemplo, es posible que un médico que lo trate por fractura de la pierna necesite saber si usted tiene diabetes, ya que la diabetes puede demorar el proceso de curación. Los diferentes departamentos de la Universidad de Columbia pueden también compartir Información de Salud tales como recetas, análisis de laboratorio y radiografías para coordinar su tratamiento. Podemos también revelar Información de Salud a personas que se encuentran fuera de la Universidad de Columbia que pueden participar en su cuidado médico.

Con fines de obtener pago

Podemos usar y revelar Información de Salud para facturar el costo del tratamiento y de los servicios que recibe en la Universidad de Columbia y poder cobrarle a usted, a su compañía de seguro u otro tercer pagador. Por ejemplo, puede ser necesario que le demos información sobre su tratamiento a su plan de
salud para que éste pague dicho tratamiento. Podemos también informar a su plan de salud sobre un tratamiento que va a recibir para obtener aprobación previa o determinar si su plan cubrirá el tratamiento o no. En el caso de que se demore el pago de una factura, puede ser necesario que le demos Información de Salud a una agencia de cobro según sea necesario para ayudar a saldar la factura o se puede dar a conocer una deuda pendiente a las compañías de informe de crédito.

Podemos revelar Información de Salud a una persona que participa en su cuidado médico o que ayuda a pagar su cuidado, tal como un miembro de su familia o un amigo. Podemos también comunicarle a su familia dónde usted se encuentra o su estado general o revelar tal información a una entidad que brinda ayuda para aliviar una situación de desastre.

Para la investigación
Bajo ciertas circunstancias, podemos usar y revelar Información de Salud para fines de investigación. Por ejemplo, un proyecto de investigación puede consistir en comparar la salud y recuperación de todos los pacientes que recibieron un medicamento con aquéllos que recibieron otro para el mismo problema. Sin embargo, antes de usar o revelar Información de Salud para la investigación, el proyecto se someterá a un proceso especial de aprobación. Este proceso evalúa el proyecto de investigación propuesto y usa la Información de Salud para sopesar los beneficios de la investigación con la necesidad de mantener la privacidad de la Información de Salud. Aún sin la aprobación especial, podemos permitir a los investigadores observar los informes para ayudarlos a identificar a los pacientes que se pueden incluir en el proyecto de investigación o para propósitos similares, siempre y cuando no retiren ni hagan copia alguna de la Información de Salud.
