Columbia’s long-term plan for the old Manhattanville manufacturing area will revitalize the four former industrial blocks from 125th/129th to 133rd Street between Broadway and 12th Avenue, and three small blocks along the east side of Broadway from 131st to 134th Street, into an environmentally sustainable and publicly accessible center for academic and civic life woven into the fabric of the West Harlem community.

Construction Activities for the Weeks of:
May 9, 2016 and May 16, 2016

What is happening

Jerome L. Greene Science Center
- Maintenance of sidewalk bridge/temporary sidewalk along Broadway between W129th and W130th streets and perimeter fence protection repairs along W125th St
- Installation of ground floor storefront interior glass and entry vestibules
- Installation of raised floor pavers on ground floor and roof terraces
- Installation of ground floor poured concrete flooring
- Full operation of modified loading dock, West 130th St entrance
- Installation of permanent loading dock walls, doors and accessories

Lenfest Center for the Arts
